PRACTICAL 2

Aim: Understand a professional test plan, Requirement Traceability Matrix (RTM), testing scope document, and testing strategy for a sample application.

Used Website: Automation Exercise

TC ID: TC01

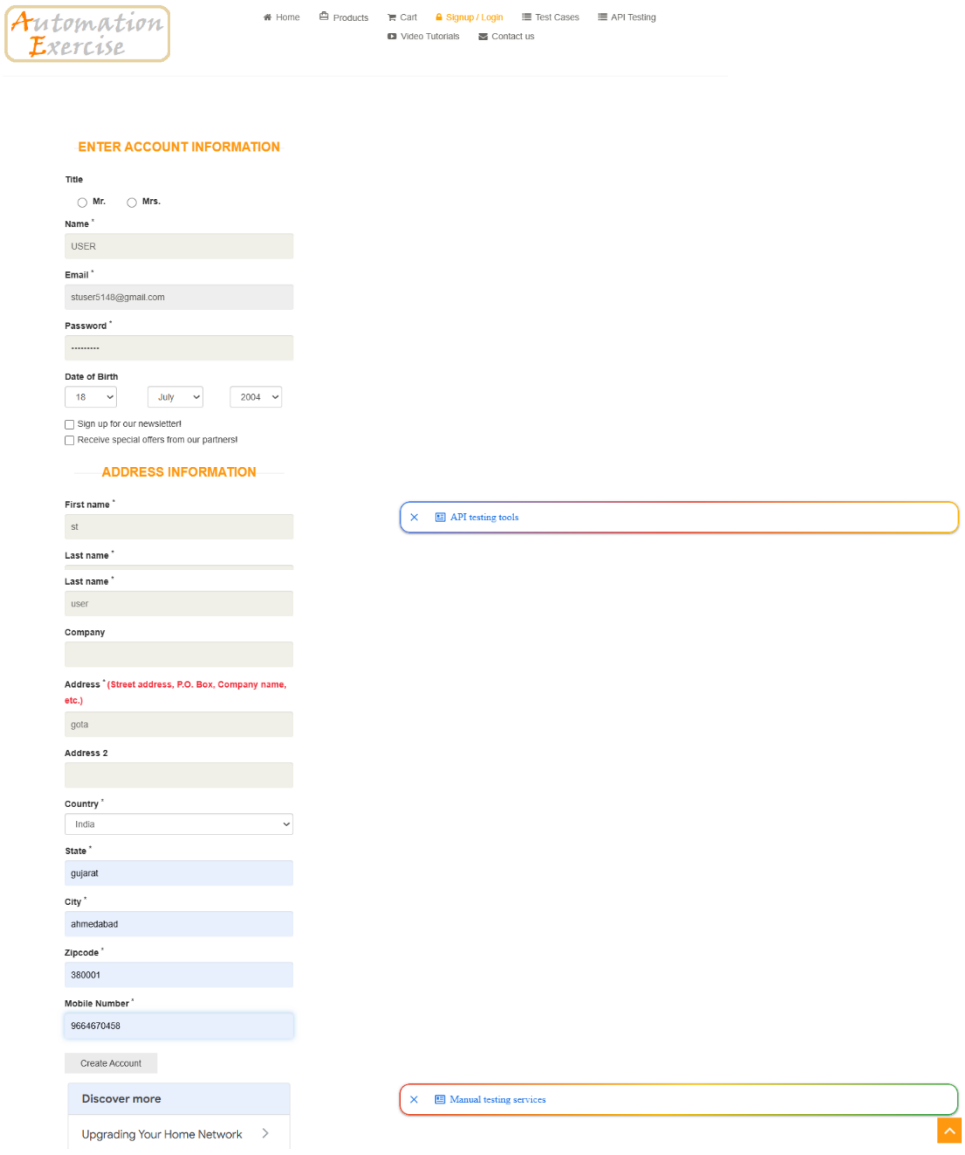

Test Case: Valid registration

Expected Result: A new user with valid details should be registered successfully.

Actual Result: user registered successfully

Status: PASS

Execution Screenshot:

TC ID: TC02

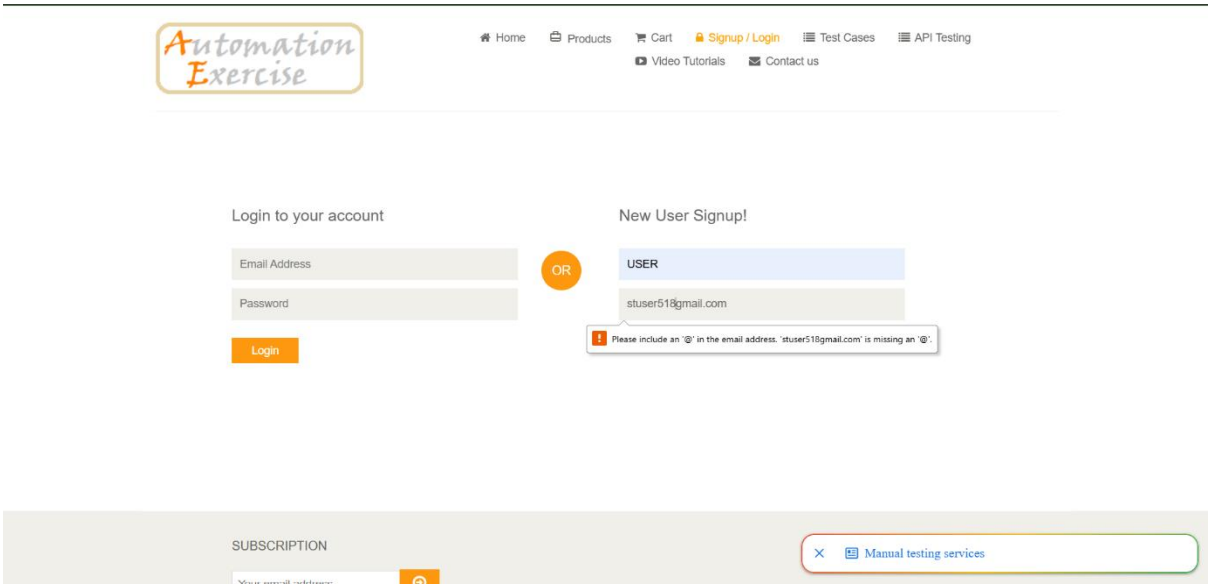

Test Case: Invalid registration

Expected Result: Invalid registration details should be rejected with appropriate validation.

Actual Result: registration rejected and appropriate validation message appeared

Status: PASS

Execution Screenshot:

TC ID: TC03

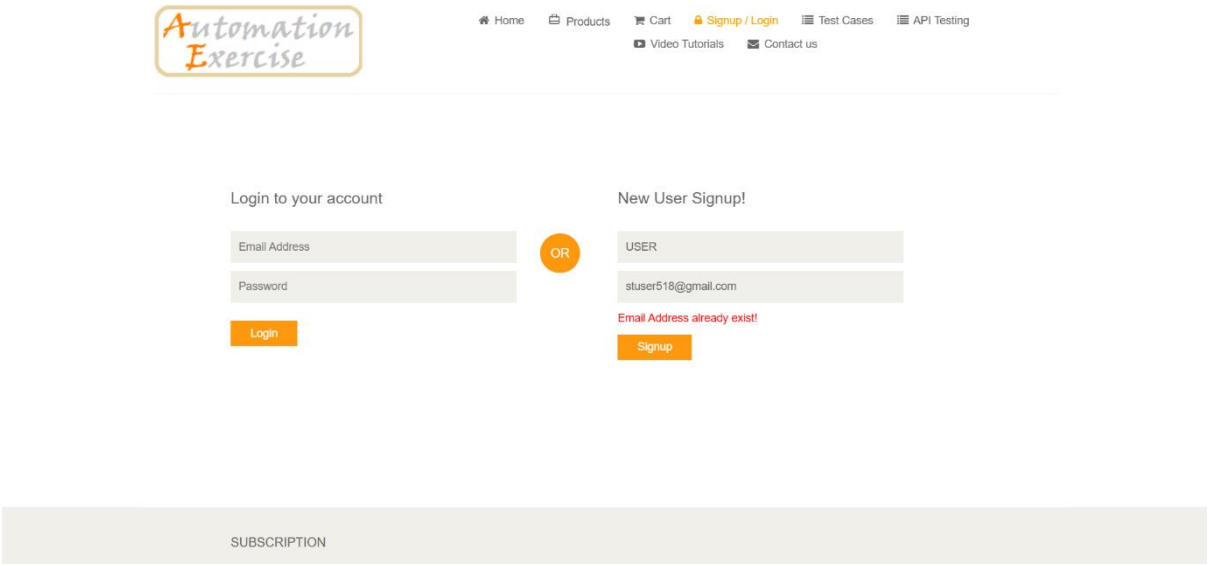

Test Case: Existing email registration

Expected Result: Registration using an already registered email should be rejected.

Actual Result: email rejected

Status: PASS

Execution Screenshot:

TC ID: TC04

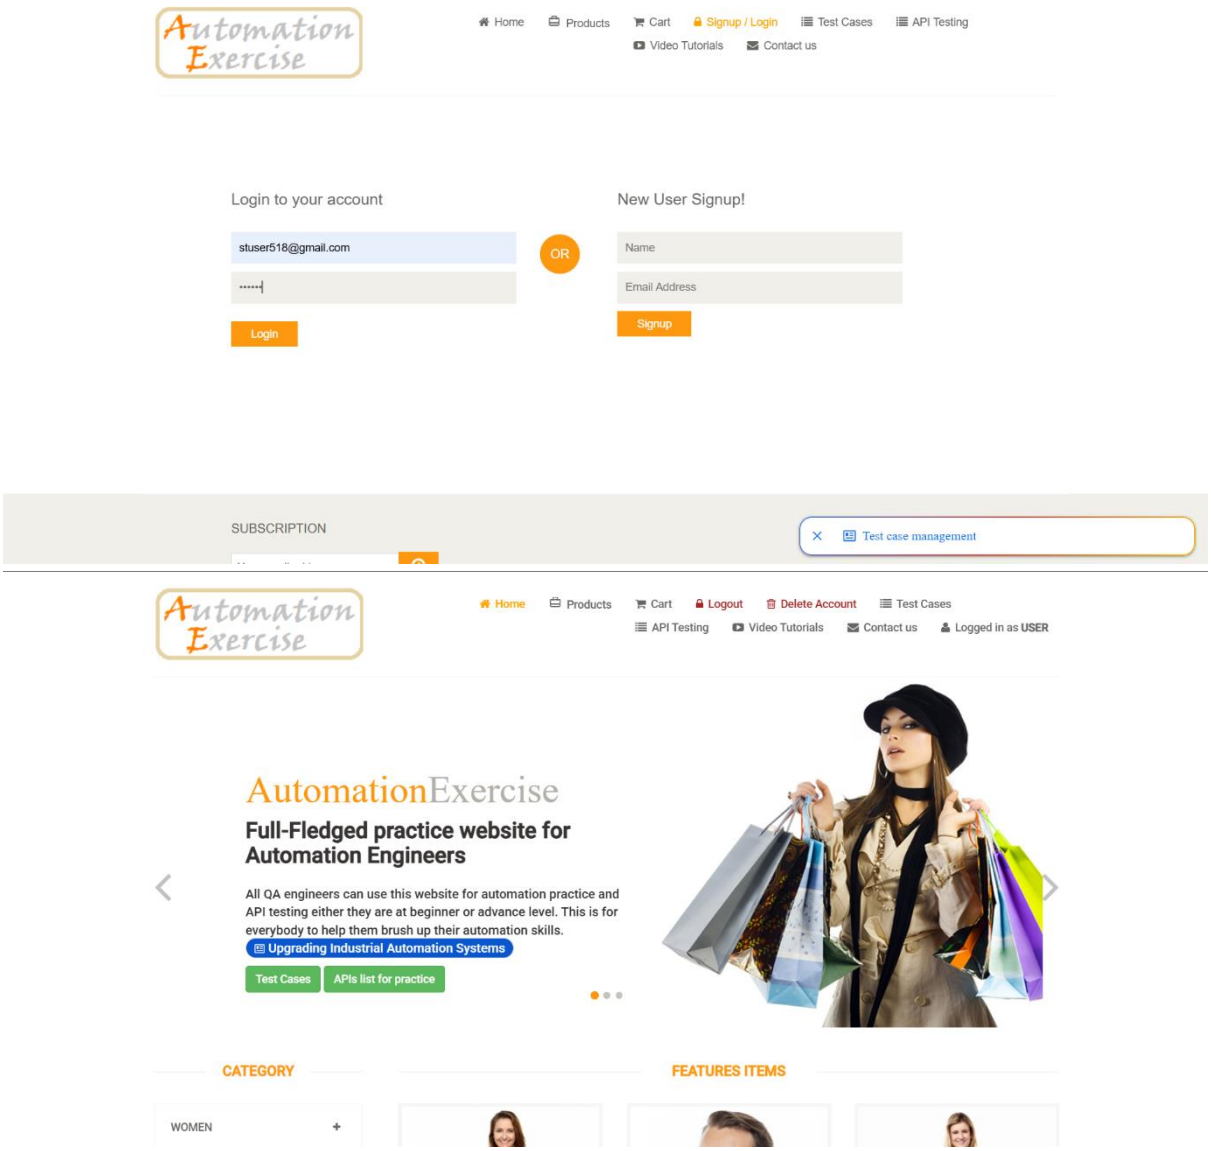

Test Case: Valid login

Expected Result: A user with valid credentials should log in successfully.

Actual Result: user logged in successfully

Status: PASS

Execution Screenshot:

TC ID: TC05

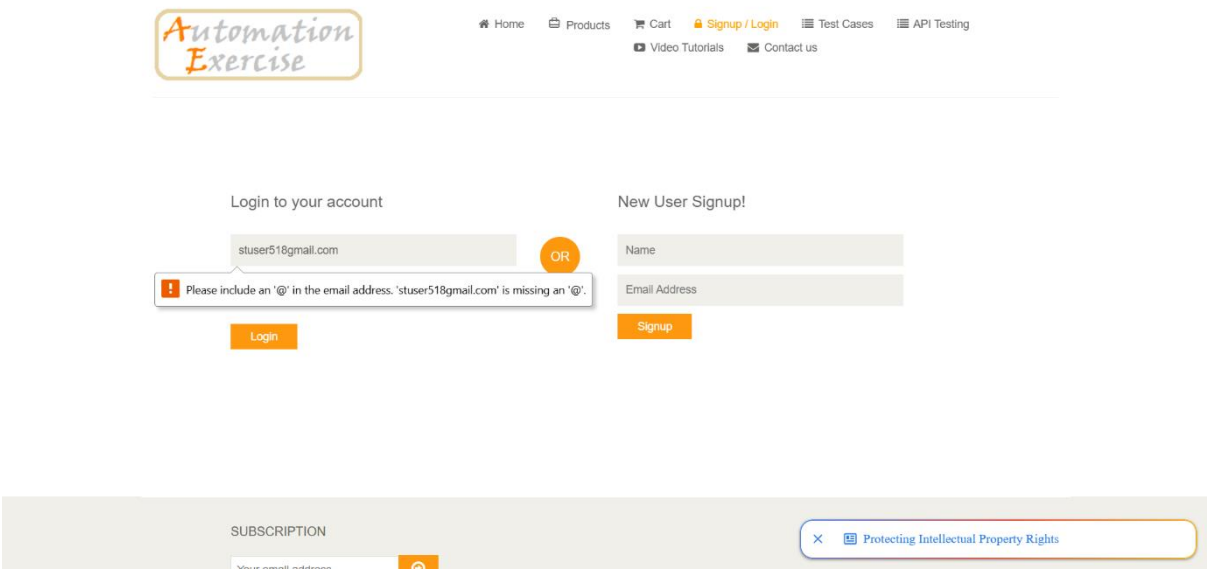

Test Case: Invalid email

Expected Result: Login with an invalid or unregistered email should be rejected.

Actual Result: email rejected

Status: PASS

Execution Screenshot:

TC ID: TC06

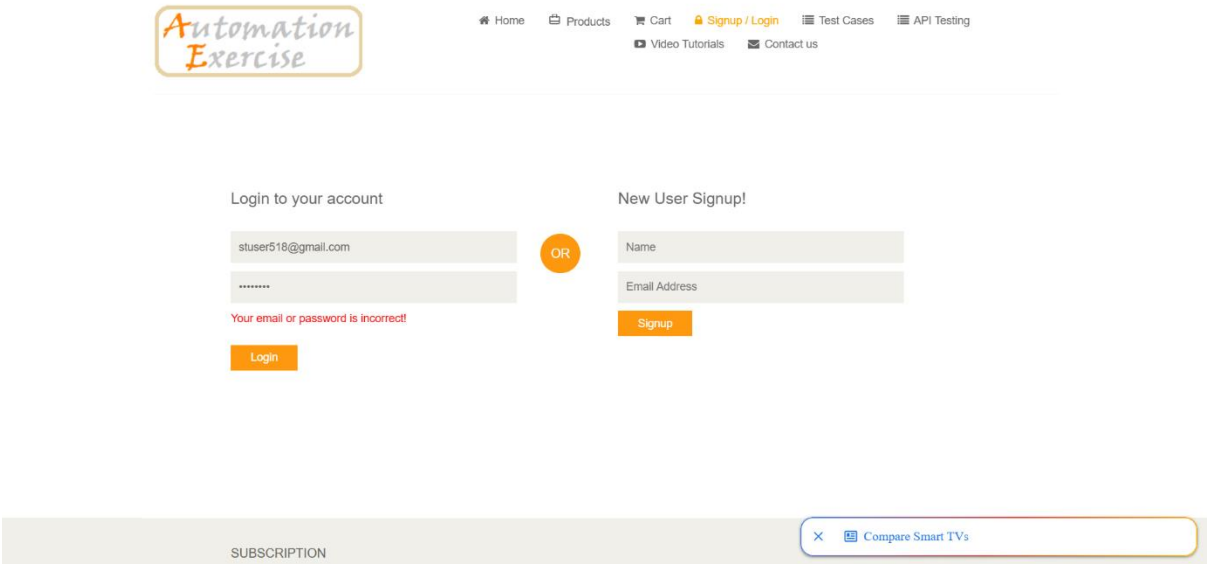

Test Case: Invalid password

Expected Result: Login with an incorrect password should be rejected.

Actual Result: password rejected. Message showed incorrect

Status: PASS

Execution Screenshot:

TC ID: TC07

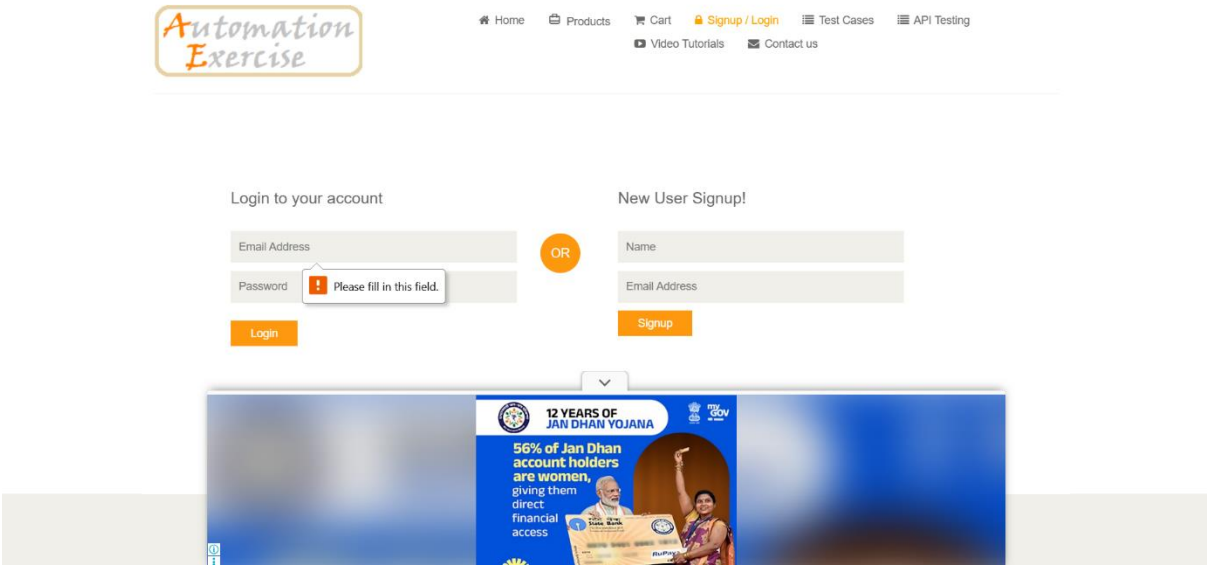

Test Case: Blank username

Expected Result: The system should not allow submission with a blank username or email field.

Actual Result: system not allowed submission

Status: PASS

Execution Screenshot:

TC ID: TC08

Test Case: Logout

Expected Result: A logged-in user should be able to log out successfully.

Actual Result:

Status:

Execution Screenshot:

Test Plan

Objective: Verify the registration, login and logout functionality.

Scope: Functional testing of the selected authentication features.

Test Approach: Positive and negative functional testing.

Entry Criteria: Application is available and test data is prepared.

Exit Criteria: Planned test cases are executed and results are recorded.

RTM

REQ01 – Registration: TC01, TC02, TC03

REQ02 – Login: TC04, TC05, TC06, TC07

REQ03 – Logout: TC08

Test Execution Summary

Total Test Cases: 8

Passed: 7

Failed: 0

Blocked: 1

Pass Percentage: To be calculated after actual execution.
