Actual Result: login rejected and appropriate message displayed

Status: PASS

Execution Screenshot:

TC03

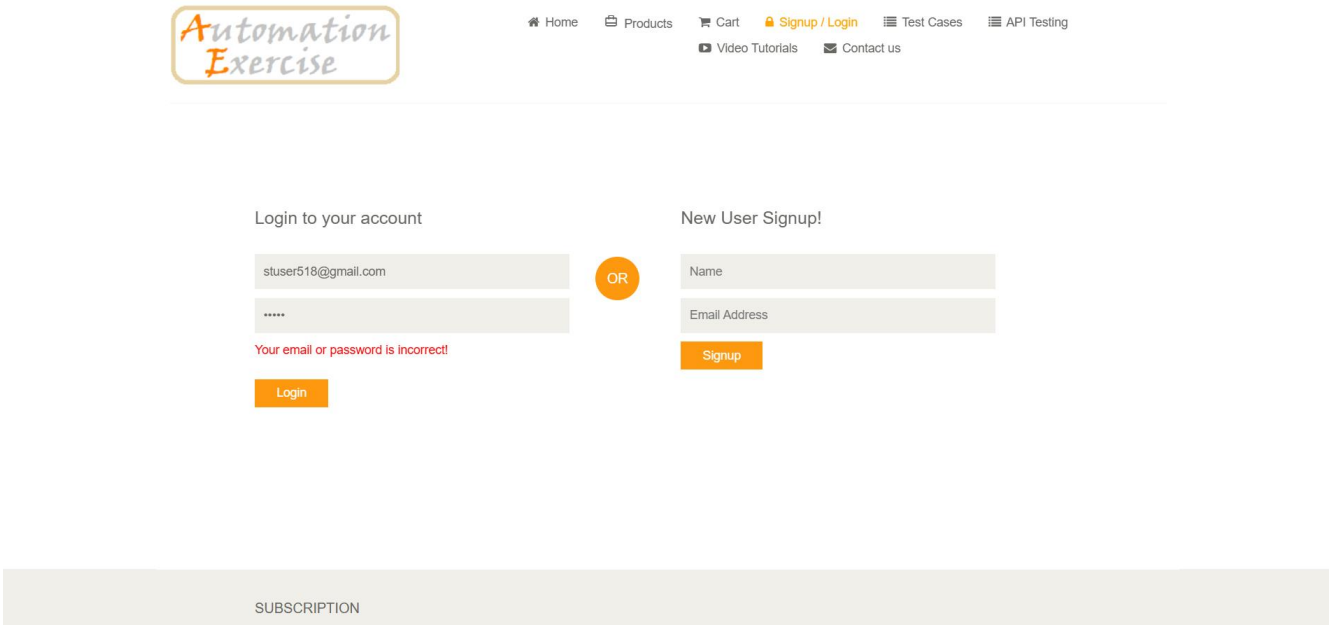

Test Case: Invalid password

Expected Result: Login should be rejected and an appropriate error message should be displayed.

Actual Result: login rejected and appropriate message displayed

Status: PASS

Execution Screenshot:

TC04

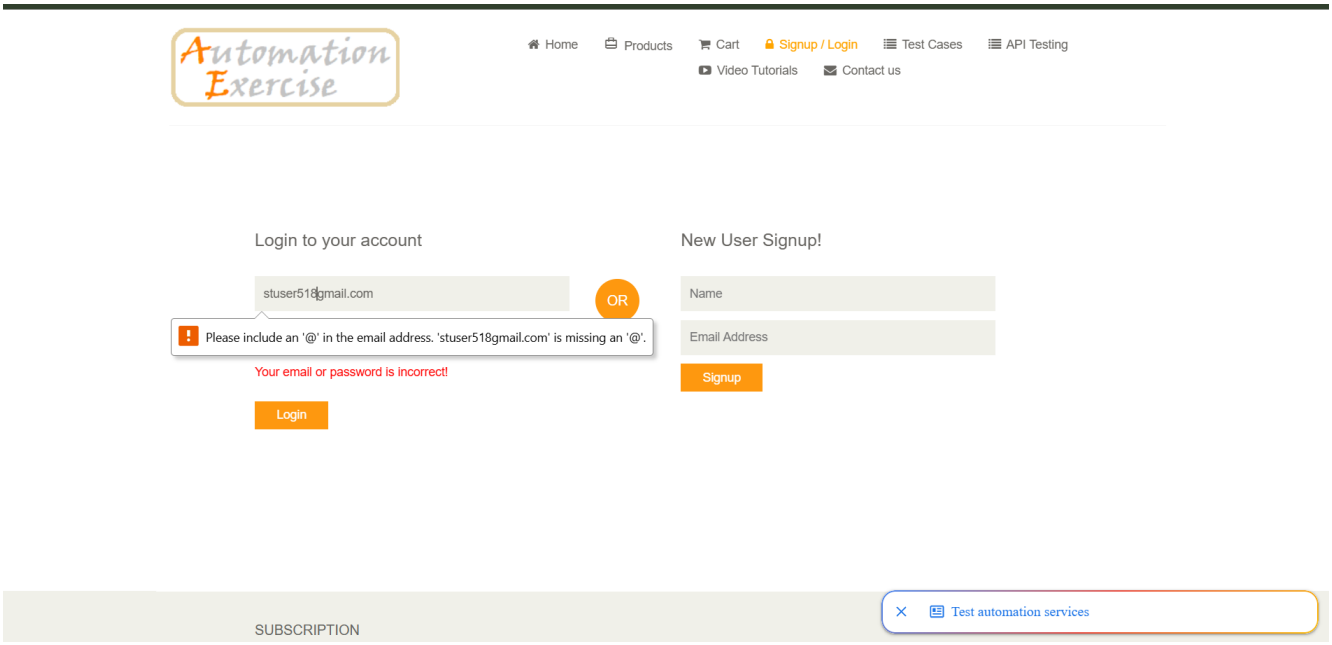

Test Case: Both invalid

Expected Result: Login should be rejected and an appropriate error message should be displayed.

Actual Result: login rejected and appropriate message displayed

Status: PASS

Execution Screenshot:

TC05

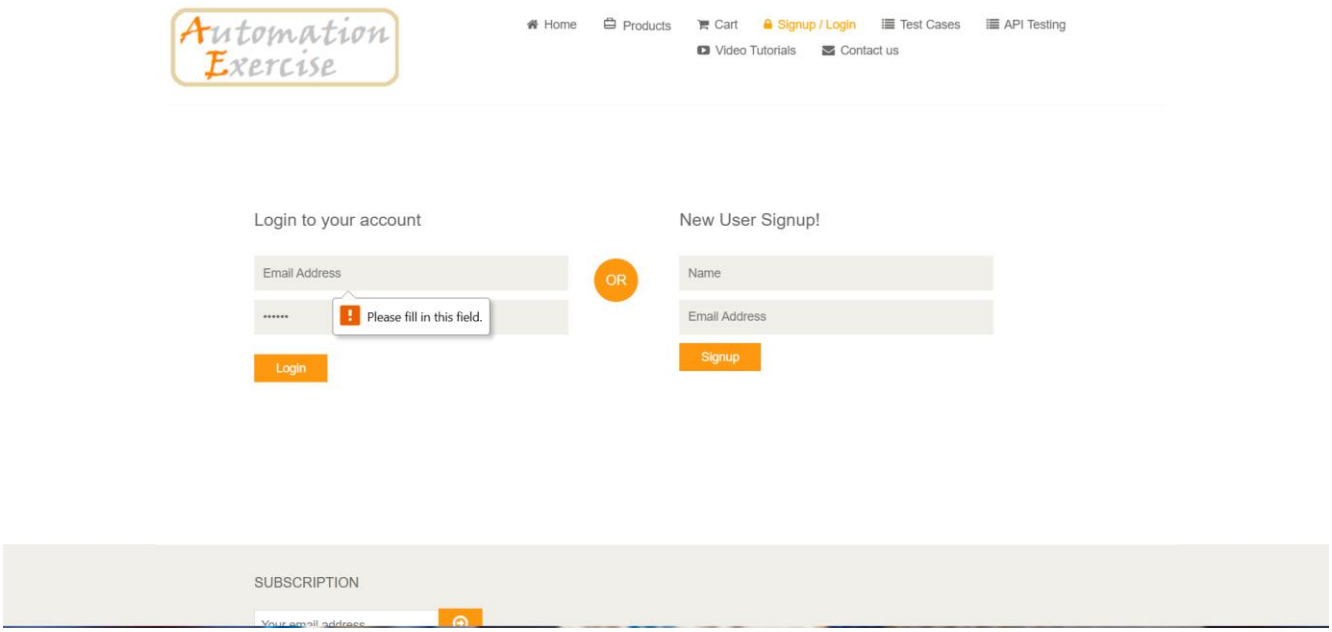

Test Case: Blank email

Expected Result: The system should not allow login with a blank email and should show appropriate validation.

Actual Result: system not allowed login

Status: PASS

Execution Screenshot:

TC06

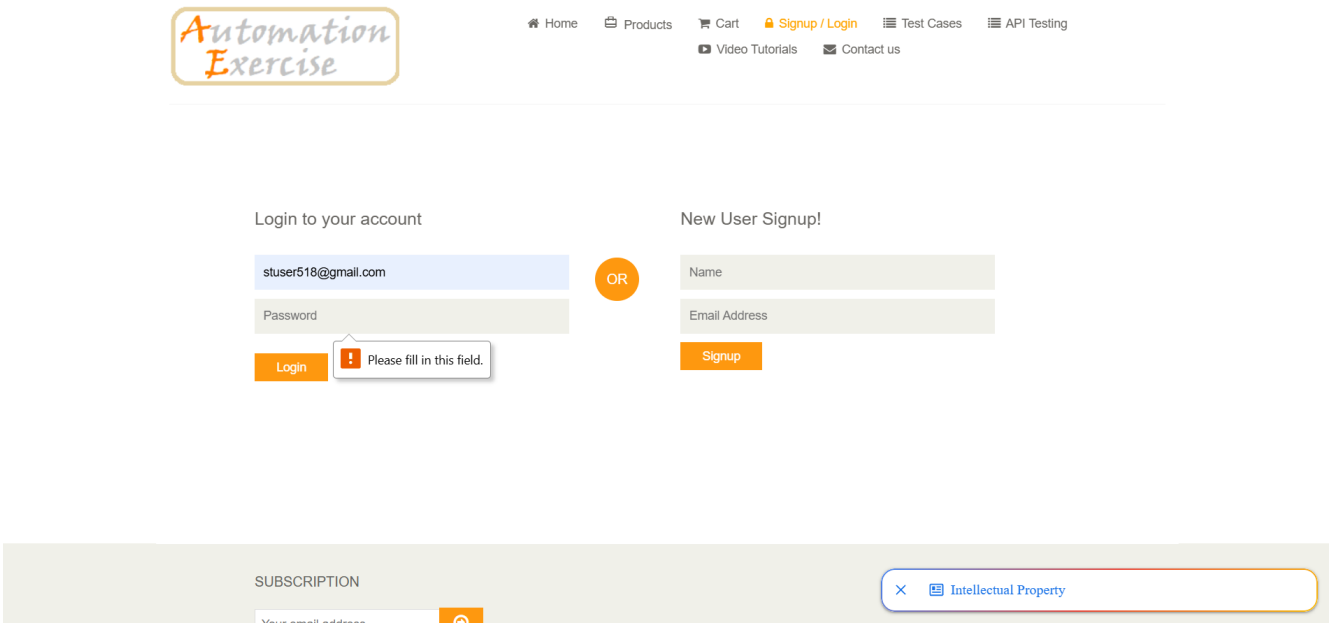

Test Case: Blank password

Expected Result: The system should not allow login with a blank password and should show appropriate validation.

Actual Result: system not allowed login

Status: PASS

Execution Screenshot:

TC07

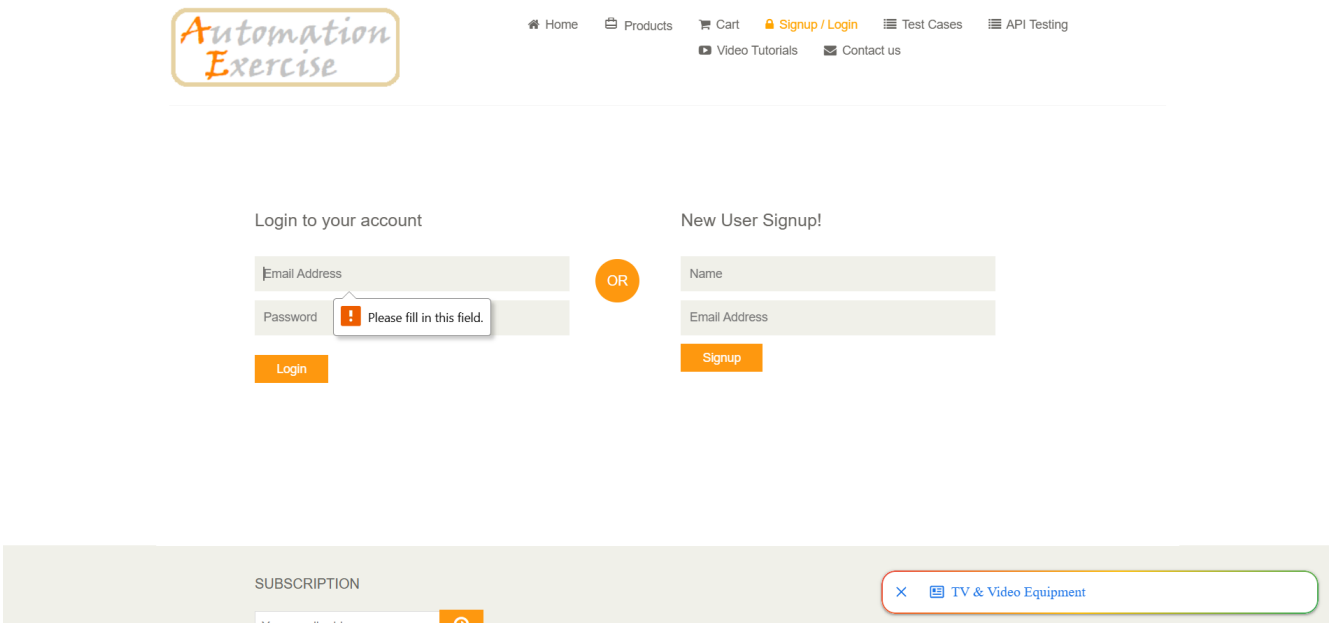

Test Case: Both blank

Expected Result: The system should not allow login and should show appropriate validation.

Actual Result: system not allowed login

Status: PASS

Execution Screenshot:

TC08

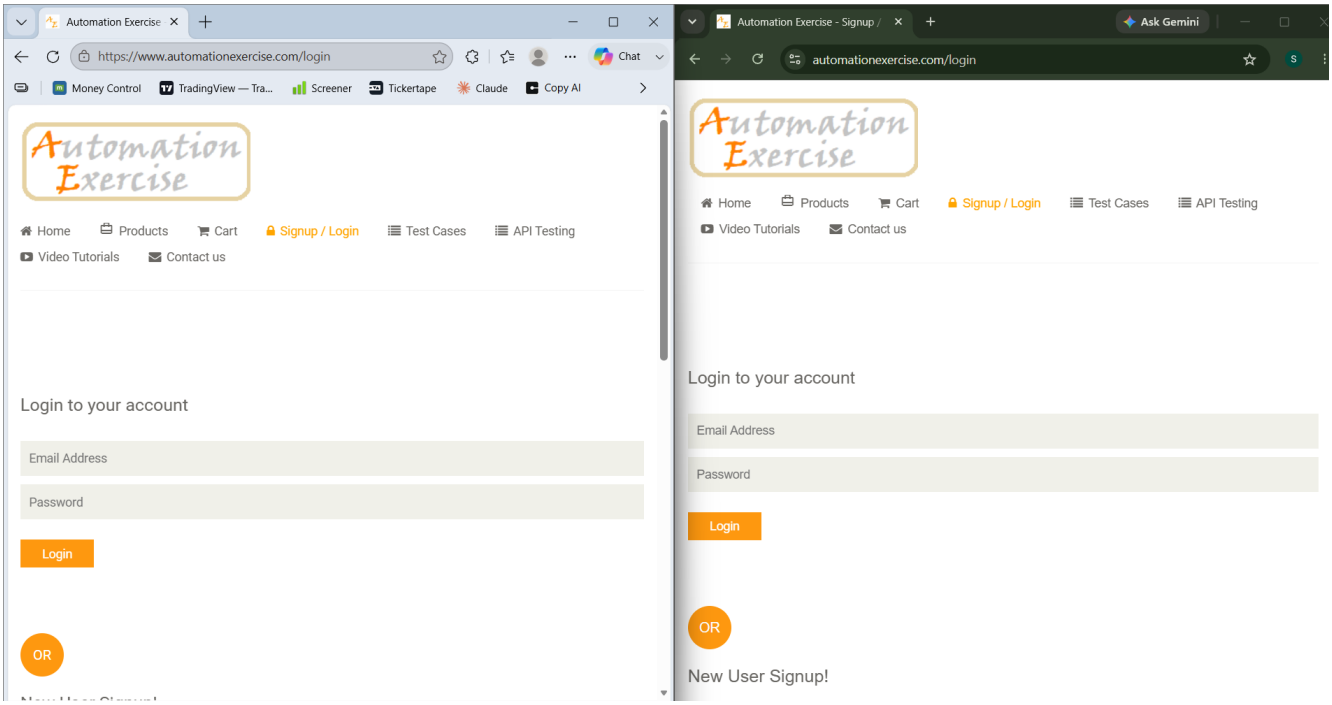

Test Case: Browser compatibility

Expected Result: The Login page and login functionality should behave consistently across the tested browsers.

Actual Result: login functionality behaved consistently across different browser

Status: PASS

Execution Screenshot:

TC09

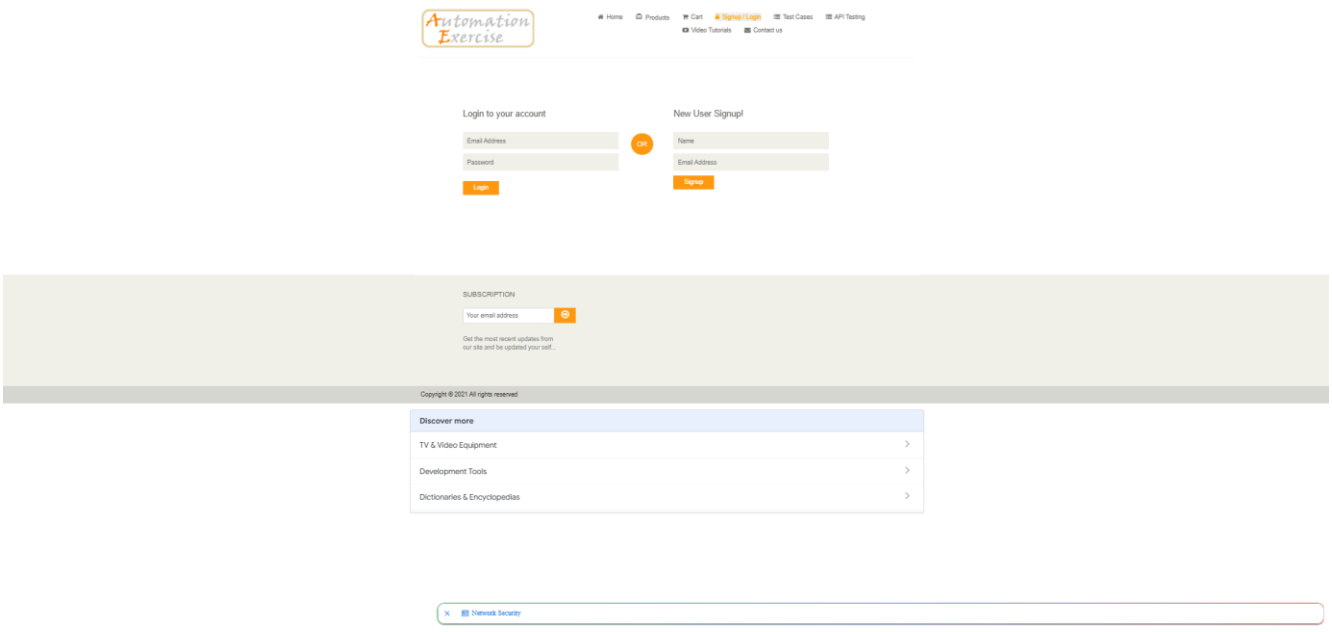

Test Case: Usability

Expected Result: The Login page should be understandable and easy to use, with clear controls and feedback.

Actual Result: Login page understandable and easy to useD, with clear controls and feedback.

Status: PASS

Execution Screenshot:

TC10

Test Case: Page layout

Expected Result: Login elements should be properly aligned, visible and presented without obvious layout issues.

Actual Result: Login elements properly aligned, visibleD and presented without obvious layout issues.

Status: PASS
