PRACTICAL 9

Aim: Understand and apply Black Box, White Box, Integration, and System Testing.

Used Website: OrangeHRM Demo

BB01

Testing Type: Black Box

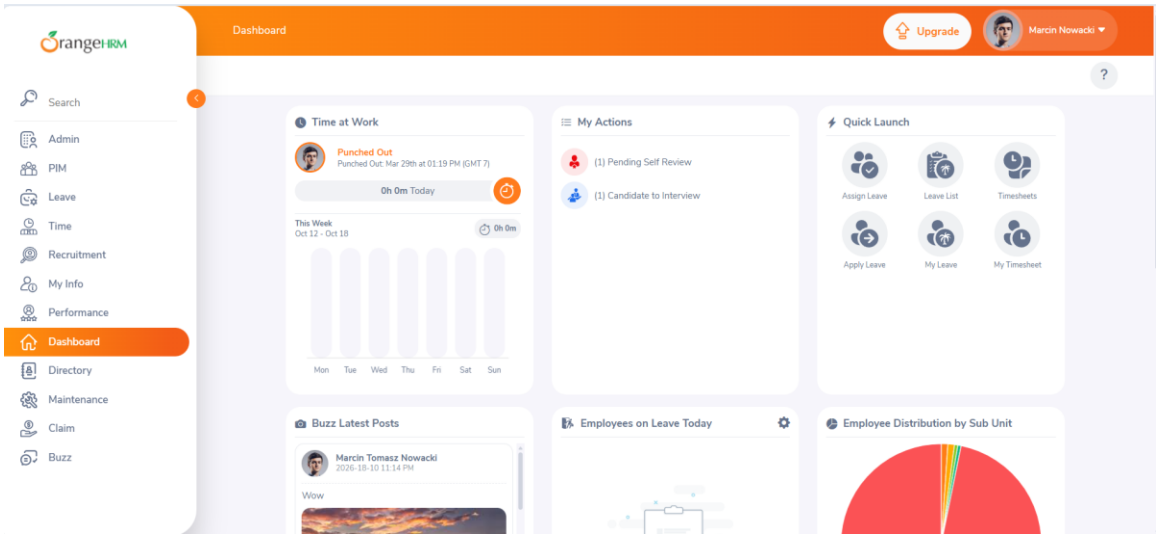

Test Case: Verify valid login

Expected Result: User should be able to log in successfully with valid credentials.

Actual Result: logged in successfully

Status: Pass

Execution Screenshot:

BB02

Testing Type: Black Box

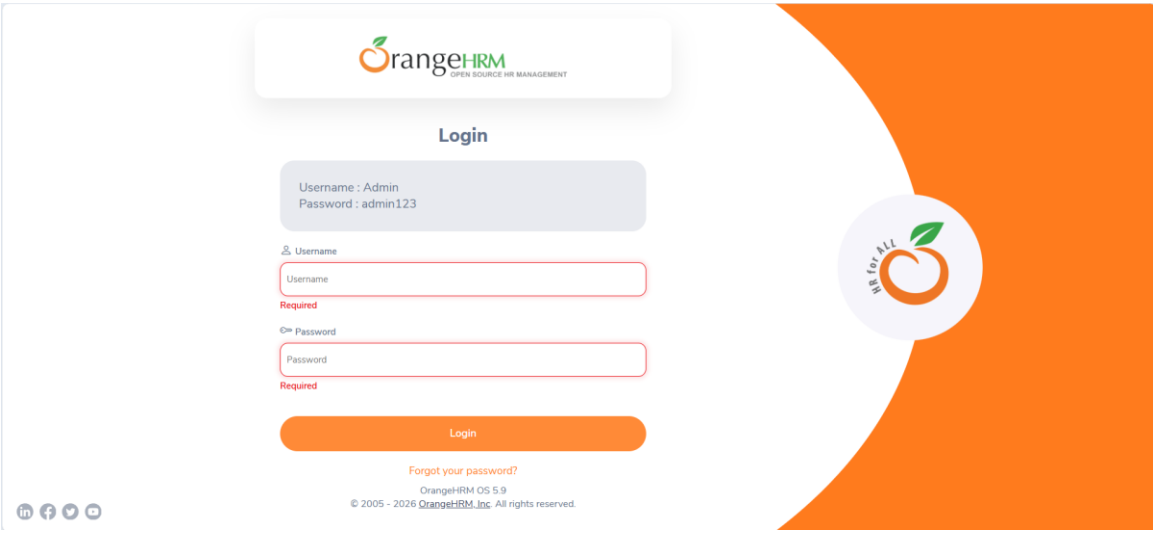

Test Case: Verify invalid login

Expected Result: System should reject invalid login credentials and display an appropriate error message.

Actual Result: rejected invalid login credentials

Status: Pass

Execution Screenshot:

BB03

Testing Type: Black Box

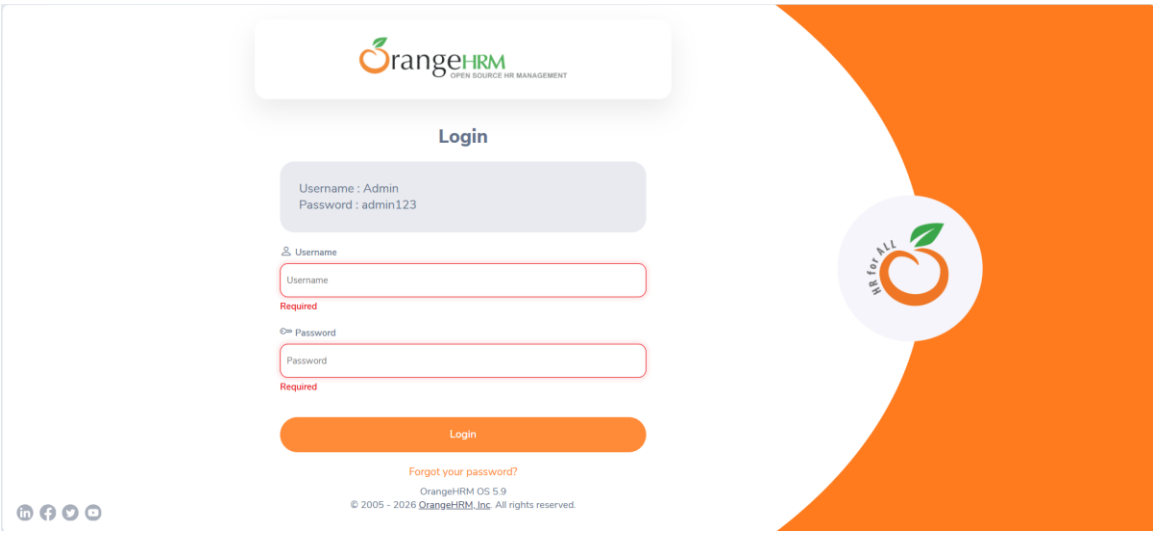

Test Case: Verify blank login

Expected Result: System should not allow login with blank required fields and should display appropriate validation.

Actual Result: login not allowed with blank fields

Status: Pass

Execution Screenshot:

INT01

Testing Type: Integration

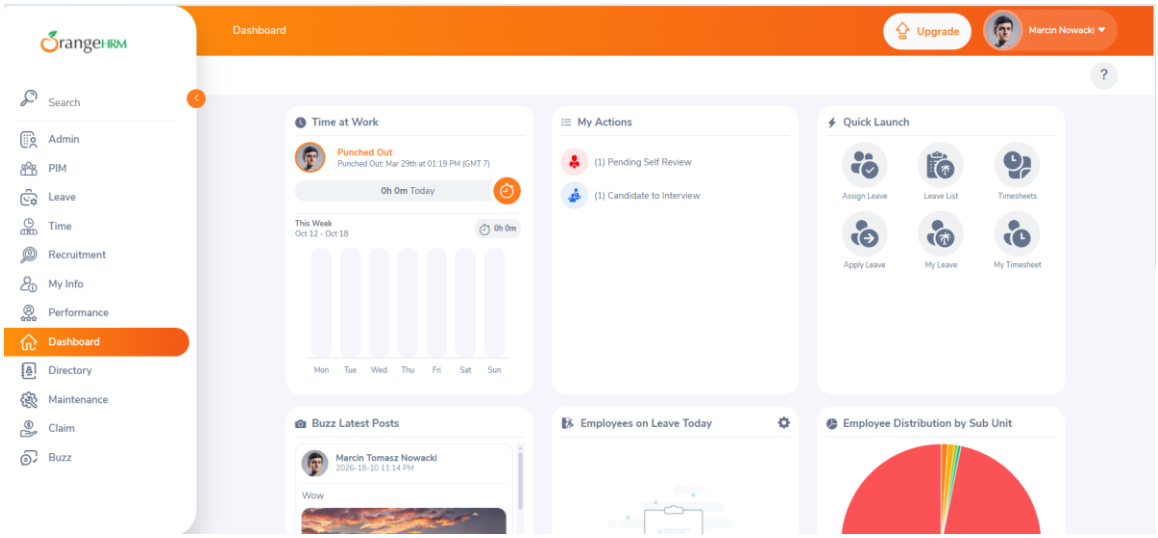

Test Case: Login to Dashboard

Expected Result: After successful login, the user should be navigated to the Dashboard.

Actual Result: user navigated to dashboard successfully

Status: Pass

Execution Screenshot:

INT02

Testing Type: Integration

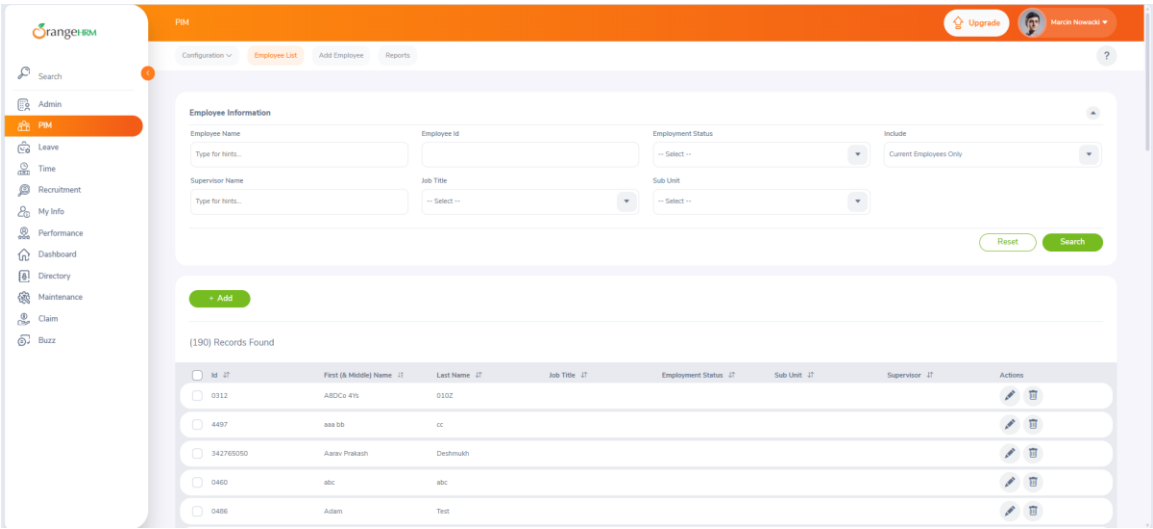

Test Case: Dashboard to Employee Management

Expected Result: The user should be able to navigate from the Dashboard to Employee Management.

Actual Result: user successfully navigated dashboard to employee management

Status: Pass

Execution Screenshot:

SYS01

Testing Type: System

Test Case: Complete workflow

Expected Result: The complete application workflow should operate as expected from login through the required employee-management flow.

Actual Result: complete application workflow successfully operated as expected

Status: Pass

Execution Screenshot:

White Box Testing

Use the small Python program supplied for the practical and document statement, branch, and path coverage separately.

Statement Coverage: All the statements in the program were executed successfully.

Branch Coverage: All the decision branches (True and False) were tested successfully.

Path Coverage: The different execution paths of the program were tested successfully.
